By supporting the Agricultural Growth Program, SMIS-project (Eth Gov), BENEFIT Partnership (WUR), Agricultural Transformation Agency (ATA), Horti-Life (SNV), EDGET (SNV) and Dairy BISS (SNV), the Embassy contributed to: the creation of 64 FNS-knowledge and new technologies and to strengthen 12 FNS-relevant knowledge institutions.

By supporting the Agricultural Growth Program (Eth Gov), BENEFIT Partnership (WUR), Agricultural Transformation Agency (ATA), Horti-Life (SNV), the Embassy contributed to 344,752 farmers adopting knowledge and new technologies and to strengthen 12 FNS-relevant knowledge institutions.

By supporting the BENEFIT Partnership (WUR) 626,025 hectares of farmland has been directly reached and 559,963 has been indirectly reached.

All projects in the portfolio have delivered satisfactorily. An increased productivity and/or income for 112,742 family farms has been achieved. Access to input/output markets has improved for 1,382,248 family farms.

Effort for Food, Income and Trade Partnership (BENEFIT), which combines 5 projects that are run by Wageningen University, has been a big contributor to these results.

The Embassy of the Kingdom of the Netherlands provides core funding to the multi donor trust fund that finances the Ethiopian government-run Production Safety Net Program (PSNP). The programme being a safety net programme means targets and baselines are not set and only people who are in need of assistance will receive it. Experience shows that between 7 and 10 million people could qualify for inclusion in the safety net programme depending on climatic conditions and impact on crop production and situations of livestock in particular with conflict or insecurity. Screening happens as a continuous basis. 17,778,000 Euro was transferred to PSNP during the reporting period. The PSNP is a fully aligned and harmonized programme that sets an example in mitigating impacts of droughts and other disasters. The contribution from the Netherlands to this programme is substantial and makes a difference.

The PSNP is a fully aligned and harmonized programme that sets an example in mitigating impacts of droughts and other disasters. The contribution from the Netherlands to this programme is substantial and makes a difference.

With 7,997,200 people reportedly having improved their food intake as a result of the PSNP and a contribution of 7.4% from the Netherlands (see result assessment below) merely 591,793 people have benefited from improved food intake.

An increased productivity and/or income for 112,742 family farms has been achieved. Access to input/output markets has improved for 1,382,248 family farms. 7.778.000 Euro was transferred to PSNP during the reporting period. Total amount for the pooled fund is 600 Mln US dollar over a five-year funding period (which equals 528 Mln Euro). Yearly budget is 105.6 Mln Euro. Therefore the Dutch programme is significantly larger than the international programme depending on climatic conditions and impact on crop production and situations of livestock (in particular with nomadic communities). Screening happens as a continuous basis. 17,778,000 Euro was transferred to PSNP during the reporting period.

Implications for planning:

The contribution made to the multi-donor trust fund by the Embassy to the multi donor trust fund that finances the Ethiopian government-run Production Safety Net Program (PSNP) is the largest among all the governmental contributions.

Implications for planning:
The contribution toward the PSNP is that the Dutch programme is significantly larger than the international programme depending on climatic conditions and impact on crop production and situations of livestock (in particular with nomadic communities).

The Embassy of the Kingdom of the Netherlands provides core funding to the multi donor trust fund that finances the Ethiopian government-run Production Safety Net Program (PSNP). This programme being a safety net programme means targets and baselines are not set and only people who are in need of assistance will receive it. **ASSESSMENT OF RESULTS**

- By supporting the SMIS project, BENEFIT Partnership (WUR), and Horti-Life (SNV), the embassy contributed to the increase of employment in agricultural chains by 28% and to an improved performance of 17 systemic linkages.

- By supporting the BENEFIT Partnership (WUR), the EKN Addis Ababa has contributed to supporting 109 systemic (cross-dimensional) linkages.

- By supporting the SMIS-project (Eth Gov), BENEFIT Partnership (WUR), and Horti-Life (SNV), the embassy contributed to reaching 157 micro entrepreneurs/SMEs in agricultural chains and to reaching 6 Archer Daniels Midland (ADD).
