## ASSESSMENT OF RESULTS

To what extent have the outcomes for this result area been achieved?

In the Security and Rule of Law (SRoL) sector, Dutch programmes focus on strengthening rule of law and improving governance. A number of agencies have been contracted to implement various projects. Justice For All (JFA) advocates for improved legislation and a number of the rights of citizens, peacebuilding, freedom of expression and enhanced prisoner rehabilitation in Ethiopian Prisons, and the abolishment of child marriage, female genital mutilation and gender-based violence.

The Netherlands also supported the United Nations Office on Drugs and Crime (UNODC) in improving the quality of the justice sector by developing a national crime-prevention strategy and a legal aid policy. Furthermore, the Netherlands started a project with the Africa Study Centre Leiden to increase the research capacity of the Oromia Regional Government, which will result in evidence-based legislation. A project was started with the Free University of Amsterdam to increase the capacity of the federal Attorney General and judiciary, and their Oromia regional counterparts.

The situation needs to be monitored closely as the speed of change may not tally with the potential for institutional change and required organizational capacity building to sustain the change.

Dutch support to the Ethiopian NGO Justice for All (JFA) programme led directly to 8,728 Ethiopians gaining access to justice through: legal aid clinics in prisons; pardon evaluations for prisoners; support to judges to help clear court case backlogs and (human rights) training for justice sector officials, including police officers. The Netherlands supports JFA in a consortium together with Norway, Sweden and Denmark; the number of people gaining access to justice through the Netherlands share in the support is 8728.

### Assessment of the results achieved across the entire result area 1:

- The program coincides with positive developments in Ethiopia with regard to the rule of law. This has certainly helped generate momentum for programme implementation.
- The situation needs to be monitored closely as the speed of change may not tally with the potential for institutional change and required organizational capacity building to sustain the change.
